Cutting Constraints in Conservation Tracking

Kodai Matsuoka   Yuyan Li   Jui-Hung Yuan

firstauthor@i1.org   yuyan.li@gmx.net

Abstract

The ABSTRACT is to be in fully-justified italicized text, at the top of the left-hand column, below the author and affiliation information. Use the word "Abstract" as the title, in 12-point Times, boldface type, centered relative to the column, initially capitalized. The abstract is to be in 10-point, single-spaced type. Leave two blank lines after the Abstract, then begin the main text. Look at previous CVPR abstracts to get a feel for style and length.

1. Introduction

Something about tracking.

2. Theory

Something about flow conservation and ILPs

3. Methods

Pseudo code about cutting constraints.

4. Results

4.1. Solutions

4.2. Computation Time

5. Conclusion

It works but isn't really worth it.
